Subject: Recommendation Letter

To Whom It May Concern,

It is with great pleasure that I write this letter of recommendation for Tianshu (Terry) Yin. During his internship as a Software Engineer Intern with our company, Tianshu consistently demonstrated a high level of competence, creativity, and dedication that far exceeded our expectations.

Tianshu was responsible for a variety of tasks, including user experience and product functionality testing, research, and contributing to both front-end and back-end development projects. He quickly adapted to our agile management workflow, efficiently completing tasks that directly impacted the quality and usability of our products. His ability to work effectively both independently and as part of our team was evident from day one.

One of Tianshu's most remarkable strengths is his proactive approach to problem-solving. Whether it was assisting the engineering and AI team on user-experience related tasks or tackling complex technical challenges, Tianshu approached each task with a clear, methodical mindset. His contributions significantly enhanced our product development process, particularly in areas requiring deep technical knowledge and attention to detail.

Based on his performance during his internship, I have no doubt that Tianshu will excel in any future endeavors. He possesses the technical acumen, leadership capabilities, and work ethic that make him an asset to any team. I strongly recommend Tianshu for any position or program he chooses to pursue.

If you have any further questions regarding Tianshu's qualifications or contributions, please do not hesitate to contact me.

Sincerely,

Cole Schnitzer
Head of Customer Success and Intern Manager
